Sea Rescue Team

Sea Rescue Team

New interactive water-jet rotating equipment

Sea Rescue Team is a revolving amusement equipment with the theme of saving marine animals as the background. The middle island is divided into four different scenes, and each scene tells a small story. Passengers will be able to circle the island in a cockpit and interact with animals by shooting at targets on the island from the cockpit's water gun.

When the target is hit, the animal targets nearby spray water and do some interesting motions. In the mid of island, the submarine piloted by Captain Murphy and other members of the team is lifted up by the water spray. After four boats are hit, there will be water spray effect. The sea rescue team rotates with the central axis, which is ornamental and interesting also an edutainment amusement equipment.

Product Function

产品功能

innovative design

The theme of sea rescue team is to save marine animals. The background of the story has certain educational significance and conveys the core values of adventure, rescue and protection

multiple type of water spraying system

In addition to the water spray gun in the cockpit, the equipment is equipped with multiple points and various water spray systems

separate independent rotating platform

The equipment adopts split type of independent rotating platform, replace the big arm, the whole is more beautiful

7 inch LCD screen

Can always show the score ranking, as well as the cockpit posture and condition

management system

It can monitor the running status of the device in real time and control and adjust the parameters of the device

The middle island consist of four parts:

Seafloor cleaning

Broken pipe polluted waters, the marine life living in nearby waters had to flee their homes, fortunately, the sea rescue team spotted something strange in the ocean by global monitors timely. In order to solve the problem in time, the rescue team members made a battle plan, and the sea creatures who had been ready to flee their homes also came to help! Finally, with the concerted efforts of all, the broken pipe was closed, the algae attached to the pipe was removed, and the sea and marine life were left with a clean home.

Interactive target

- Broken pipes, seaweed, octopus, crabs, sea urchins,
- Community coral reef
- Several water spraying points (including targets)
- Effect of water mist

underwater concert

The underwater concert will be grand opening, a group of shellfish as a choir, will bring you a wonderful chorus. But the shellfish have become lazy from eating too much and with the concert about to begin, the rescue team had to use some special methods to make the shellfish a little more energetic in order to get the opening chorus going.

Interactive target

- Coral group, seaweed, scallop, conch, nautilus, etc
- Several water spraying points (including targets)

Stranded humpback whale

A humpback whale has become stranded and is in critical condition. Small crabs and hermit crabs are helping to water the whale. Several penguins are trying to help the whale out, but the animal's huge size makes them helpless. The beached humpback was saved by the arrival of an express rescue team and the rabbit, who poured water on the whale

Interactive target

- humpback whale, crabs, pagurian, penguin
- a frame made of branches and vines
- several water spraying points (including targets)

Top sharpshooter

The rescue team had accidentally entered archerfish territory, and the competitive archerfish must let the rescue team fight it out to get them to leave. In order to get rid of the archerfish as soon as possible, the members of the rescue team and the archerfish staged an underwater shooting battle

Interactive target

- Coral reefs, archerfish, seaweed, starfish

Power supply: AC380V/50Hz, 3P+N+

Rated power:20KW rotate speed:2rpm rated total driving power:14.66KW

Rotary direction: CCW max height : 4.35m(installation needs to be 5.3mhigh)

Min floor space: 230m²(length16.5m x width14m) pool depth: 450mm

Capacity: 28p (2p/cockpit, adult, children are not limited)

Cockpit number: 14 pool capacity: 21m action type: rotation

Driving mode: motor drive

Swing diameter: 10.58m
